Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: The claimed combination including the limitations of a valve timing adjustment device having two rotors capable of relative rotation to each other, each rotor with a track extending to vary its radial distance from rotation centerline, both rotor tracks contacting a control member, and the track of one rotor slants toward the track of the other rotor along the rotational direction of each rotor, is not disclosed or rendered obvious over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
